Hello, my name is Rob Smith. I am the Supervisor of Instruction for the Northeast Carpenters Apprenticeship Fund. I work daily, along with Nick DeMatteo, Executive Director, and other leadership of the Training Fund, as well as with our industry partners to support you, our members, and your educational opportunities. We all strive to meet the demand of our contractors and challenges that surround our many projects in the field. As we all know, COVID has created a new set of challenges which have been met head-on since March 2020. Our training programs are working daily to keep our students and staff safe and educated.

*I am proud to announce through communication and teamwork with **Grabber Construction Products & DEWALT**, we are now able to deliver to our current apprentices a free training resource. The Stanley Black and Decker University Bluevolt Learning Management System (LMS) will give you, the apprentice, the opportunity to take short interval trainings to become familiar with the proper use & safety features within the latest tools from DEWALT and some of their other world class brands. The Carpenters JAC Apprentices should log into the LMS using their Carpenters JAC training email address, and then will be asked to set a new personal password to complete registration.*

Our vision for this partnership is to continue to provide quality training surrounding what is needed in today's new reality. Please go [HERE](#) to Log In and begin learning via your phone, tablet or computer. These courses will help you stay ahead of the curve in our ever-changing environment.

Be Well & Stay Safe,

Rob

Mr. Robert Smith
Supervisor of Instruction
Eastern Atlantic States Training Fund
